

# ПРВО известување

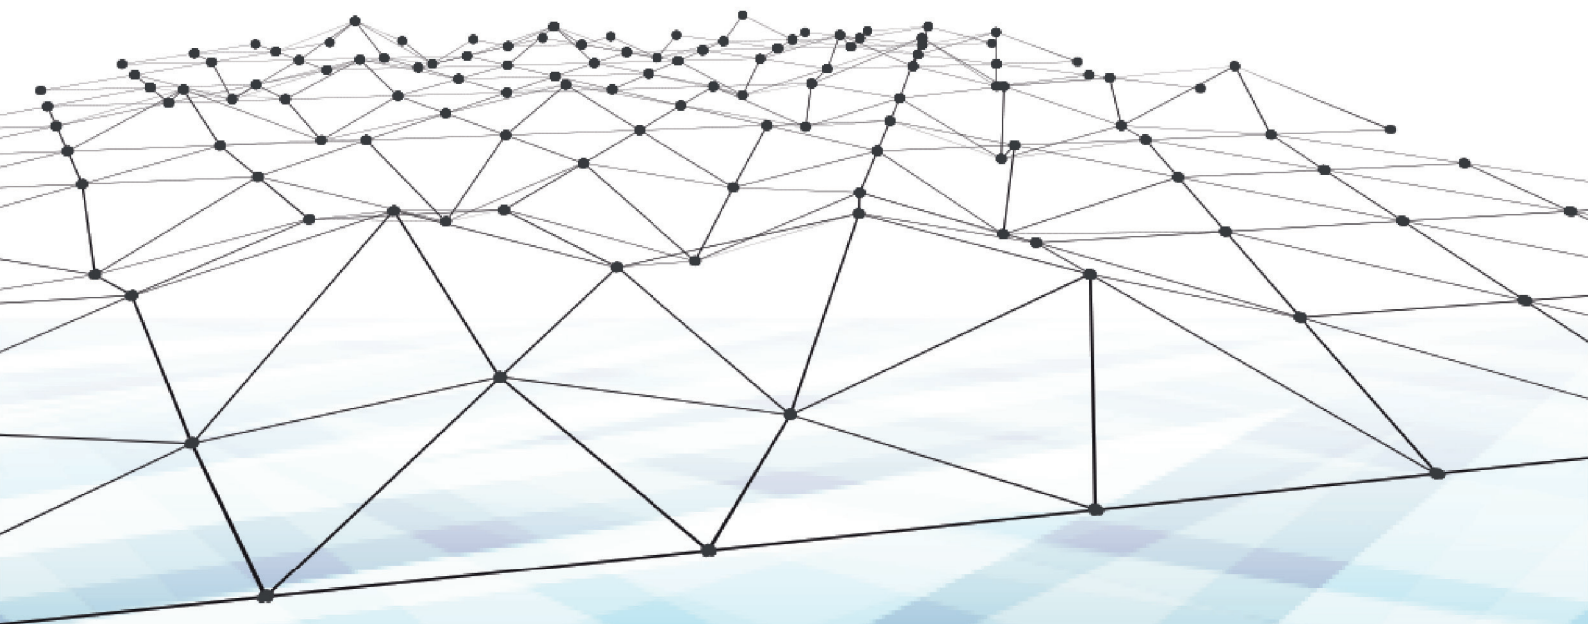

Информации за учество на

ПРВИОТ МЕЃУНАРОДЕН СИМПОЗИУМ ЗА

„Вештачење на незгоди, надомест на штета, како и измами во осигурувањето и превозот“

**10 - 13 ОКТОМВРИ, 2024**

Хотел Силекс, Охрид, Република С. Македонија

## Цели на Симпозиумот

Сè повеќе се водат судски спорови и постапки поради (обид) за осигурителна измама, поврзана со сообраќајни незгоди и при извршување на превозот.

Затоа, ние како фирма која е директно вклучена во процесот на вештачење, сакаме да ги собереме сите учесници кои го креираат процесот на изработката, вештачењето и одлучувањето поврзано со случените сообраќајни незгоди, што би ги опфатило првите полициски екипи кои доаѓаат после случена сообраќајна незгода, Увидна екипа која врши увид во сообраќајната незгода, обвинители, проценителите, вештаци, како и сите субјекти кои се дел од процесот на измама при настанати сообраќајни незгоди и при превозот на стока, како во внатрешниот, така и во меѓународниот сообраќај.

На 1-виот меѓународен Симпозиум за вештачење за незгоди, надомест на штета, како и измами во осигурувањето и превозот ќе бидат презентирани решенија за некои конкретни случаи на стручни наоди и мислења.

Покрај разликите во изразувањето и наодите на експертите, односно вештаците, забележани се и разлики во примената на вештините, законските рамки, расудувањето без детално познавање на прописите, проценките и анализите на опасните ситуации.

Затоа, со цел да се соочат сите причини и придонесите поврзани со создавањето и анализата на сообраќајните незгоди, како и измамите во осигурувањето и превозот, на 1-виот меѓународен Симпозиум за вештачење за незгоди, надомест на штета, како и измами во осигурувањето и превозот сакаме да посветиле повеќе внимание на начинот на изразување на ставовите на вештаците на настанатите сообраќајни незгоди, како и на превозниците кои извршуваат превоз на стока, а кои директно или индиректно учествуваат при овие измами, својствени при нивниот превоз. Ова е особено важно за обвинителите, судиите, полицијата, како и адвокатите, со цел јасно да разберат добро проблематиката.

Токму затоа се планира на 1-виот меѓународен Симпозиум за вештачење за незгоди, надомест на штета, како и измами во осигурувањето и превозот, да се обработат најчестите видови на измами во осигурувањето и превозот, како и примената на мерките за спречување на таквите измами.

### **3 дневен аранжман вклучува:**

- котизација за учество на симпозиумот
- 2 полни пансиони и еден полу пансион,
- свечена вечера со музика и неограничен пијалак,

## Dive into history in Ohrid

The Church of Saint John at Kaneo overlooks the calm waters of Lake Ohrid.

PHOTOGRAPH BY PASCAL MEUNIER, REDUX

Click your heels in Ohrid and you might think you've been transported to the Mediterranean. The crystal clear waters of Ohrid—one of the world's oldest lakes—date back more than a million years. Tucked along the lush, hilly shore is the city of Ohrid, home to 56,000 people and one of the oldest settlements in Europe. The entire region is designated as a UNESCO World Heritage property.

Ohrid's importance in religious history is evident in dozens of historic churches and monasteries, such as the Church of Saint John at Kaneo, which occupies a prominent perch on the edge of the lake. While stunning, it might be outdone by St. Panteleimon, the world's oldest Slav monastery, where the intricate rockwork has been meticulously restored.

Wander the bustling streets of the Old Bazaar before venturing farther afield. To the south, Galicica National Park straddles a big hump between Ohrid and Prespa Lakes, which can be viewed from the 7,395-foot peak of Magaro Peak. Afterward, hop on a boat at Prespa Lake to Golem Grad, also called Snake Island. Yes, there are snakes, and more than 200 species of birds, including pelicans. Also check out the beautiful frescoes in the 14th-century St. Peter's Church.

## Lake Ohrid – The Pearl Of The Balkans

Lake Ohrid is the hidden gem in Europe that you've likely never heard of. If you have heard about this gem, chances are you haven't visited. If you are one of the lucky few to have visited this pearl, you will know what we are talking about! This quaint old lakeside town in North Macedonia is picturesque and incredibly charming. Our 6 day stay was enough for us to declare it one of the most underrated travel destinations in Europe! Keep reading to see why we rate Lake Ohrid so highly, and some recommendations for when you visit!

We ventured to Lake Ohrid from Malmo (Sweden) with little expectations and a lot of unknowns. Our research in early 2022 into non-Schengen countries and destinations uncovered North Macedonia, and Lake Ohrid was one of the highly recommended destinations. However, comparative to other European destinations, there isn't that much information online, and we didn't know anyone who had visited Lake Ohrid before. We arrived late on an overcast day, but instantly took a liking to the narrow cobbled streets and calm lake. Tess' parents also made the journey to Ohrid from Albania (2 hours via private transfer from Korce) which allowed us to enjoy some much needed R&R and family time. Over the next few days, with glowing sunshine, Lake Ohrid worked her charm, and by the end of our stay we were enamoured with her beauty.

# FIRST NOTICE

Information about participation at the

## THE FIRST INTERNATIONAL SYMPOSIUM on

“Accident Forensics(Expert Witness Opinions), Compensation for Damages,  
and Insurance and Transportation Fraud”

**Dates: 10 - 13 OCTOBER, 2024**

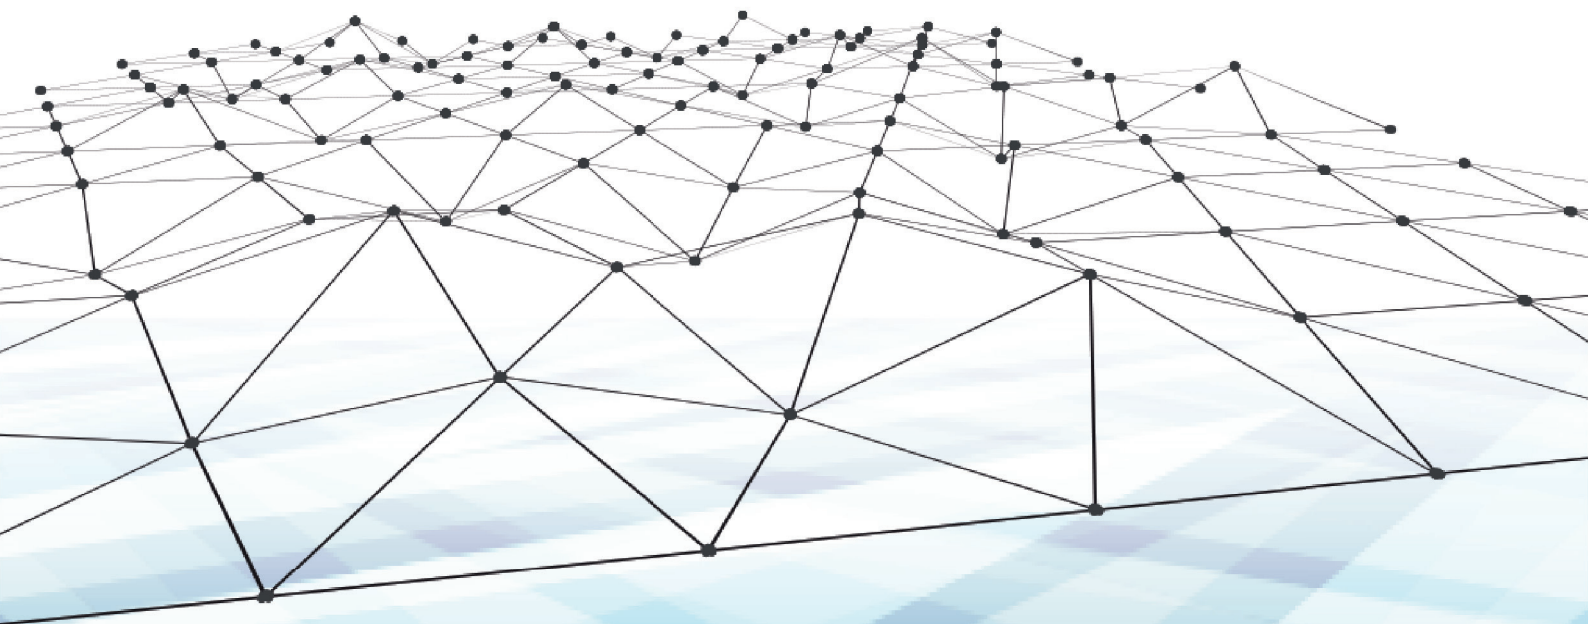

**Venue: Hotel Sileks, Ohrid, Republic of North Macedonia**

Organizer: EXPERT WITNESS AGENCY  
blvd. Partisanski Odredi no. 70 block 21;

**1000 Skopje,  
Republic of N. Macedonia**

бул. Партизански одреди бр. 70 б, лок 21;  
1000 Скопје, Македонија

## **Objectives of the Symposium**

There is an increasing number in lawsuits and proceedings about (attempts) insurance frauds in traffic accidents and transportation accidents.

Therefore, we, as a company that is directly involved in the expert witness opinion process, want to bring together all stakeholders who create the process of drafting the expert witness opinion and the decision regarding the traffic accidents, made by the first police teams to arrive at the scene of the traffic accident, the Expert Task Force for insights in traffic accidents, prosecutors, assessors, expert witnesses, as well as all the other subjects involved in the fraud of traffic accidents and frauds in the transportation of goods in both national and international traffic.

At the 1-st International Symposium on Accident Forensics, Compensation and Insurance Fraud and transportation will present solutions to some specific cases of expert findings and opinions.

In addition to the differences in the expression and the findings of the experts i.e. the expert witnesses there are also noted differences in the application of skills, legal frameworks, reasoning without detailed knowledge of regulations, assessments, and analyses of dangerous situations.

Therefore, in order to sum all the causes and contributions associated with the occurring and the analysis of the traffic accidents, as well as the fraud in the insurance and transportation, at the 1st International Symposium on Forensic accidents, damages, and insurance and transportation fraud we would like to pay attention to the manner of expressing the views of the experts on the occurrence of traffic accidents, as well as of the transport carriers in transportation of goods, who directly or indirectly participate in these frauds, specific to their transportation. This is especially important for the prosecutors, judges, police, and lawyers to clearly understand this problem.

That is why the 1-st International Symposium on Accident Forensics, Compensation for Damages, and Insurance and Transportation Fraud, to address the most common types of insurance and transportation fraud, and the implementation of measures to prevent such fraud.
